

# ENUM in NL +31 status update

Antoin Verschuren  
Technical Advisor SIDN  
[antoin.verschuren@sidn.nl](mailto:antoin.verschuren@sidn.nl)

# History

2001 - 2002	NLEG report
2002	Delegation 1.3.e164.arpa to Ministry
2002 – 2005	No interest from market
2005	Renewed interest from market
2006	SIDN starts ENUM initiative
31-09-2006	Redelegation Request

# NLEG report

- NLEG: NL Enum Group
- Participants: ISOC NL, KPN, Ministry, NLIP (ISP's), Nominum, RIPE NCC, SIDN
- Result: Report with 12 recommendations for implementing Public User Enum.
- <http://www.enumnederland.nl>

- SIDN is prepared to run the registry
- Participate in ENUM events
- Contact stakeholders
- Explain/give presentations
- Business case
- New organization: Stichting ENUM Nederland
- Infrastructure preparation
- Prepare communication ([www.enum.nl](http://www.enum.nl))
- Ask support for initiative

# Redelegation request

- Instead of only talking and not doing anything, just start.
- Support from major stakeholders:  
AMS-IX, ISOC NL, BTG (large telecommunication users), VNO-NCW (employers' organization)
- Not wait for explicit consensus, but go for “no objection” process.
- Go live, no trial
- First ENUM REdelegation.
- First to use new RIPE templates.

# RIPE proposal

In order for ENUM registries to not be misinterpreted in the RIPE NCC database, I want to propose to change an organization type to be used in the organization object.

Current organization types are:

IANA

RIR

NIR

LIR

NON-REGISTRY

I would like this NON-REGISTRY to be changed to OTHER.

# What's next ?

- Ministry intends to approve redelegation
- Comments until 9-10-2006 ([www.enum.ez.nl](http://www.enum.ez.nl))
- Approval end October
- Start an independent open platform, probably with ISOC NL and ECP:
  - Consultation
  - Promotion, knowledge sharing
- Operational registry Q2 2007
- More at RIPE 54

# Questions ?
