# RIPE Meeting Network

# What is new?

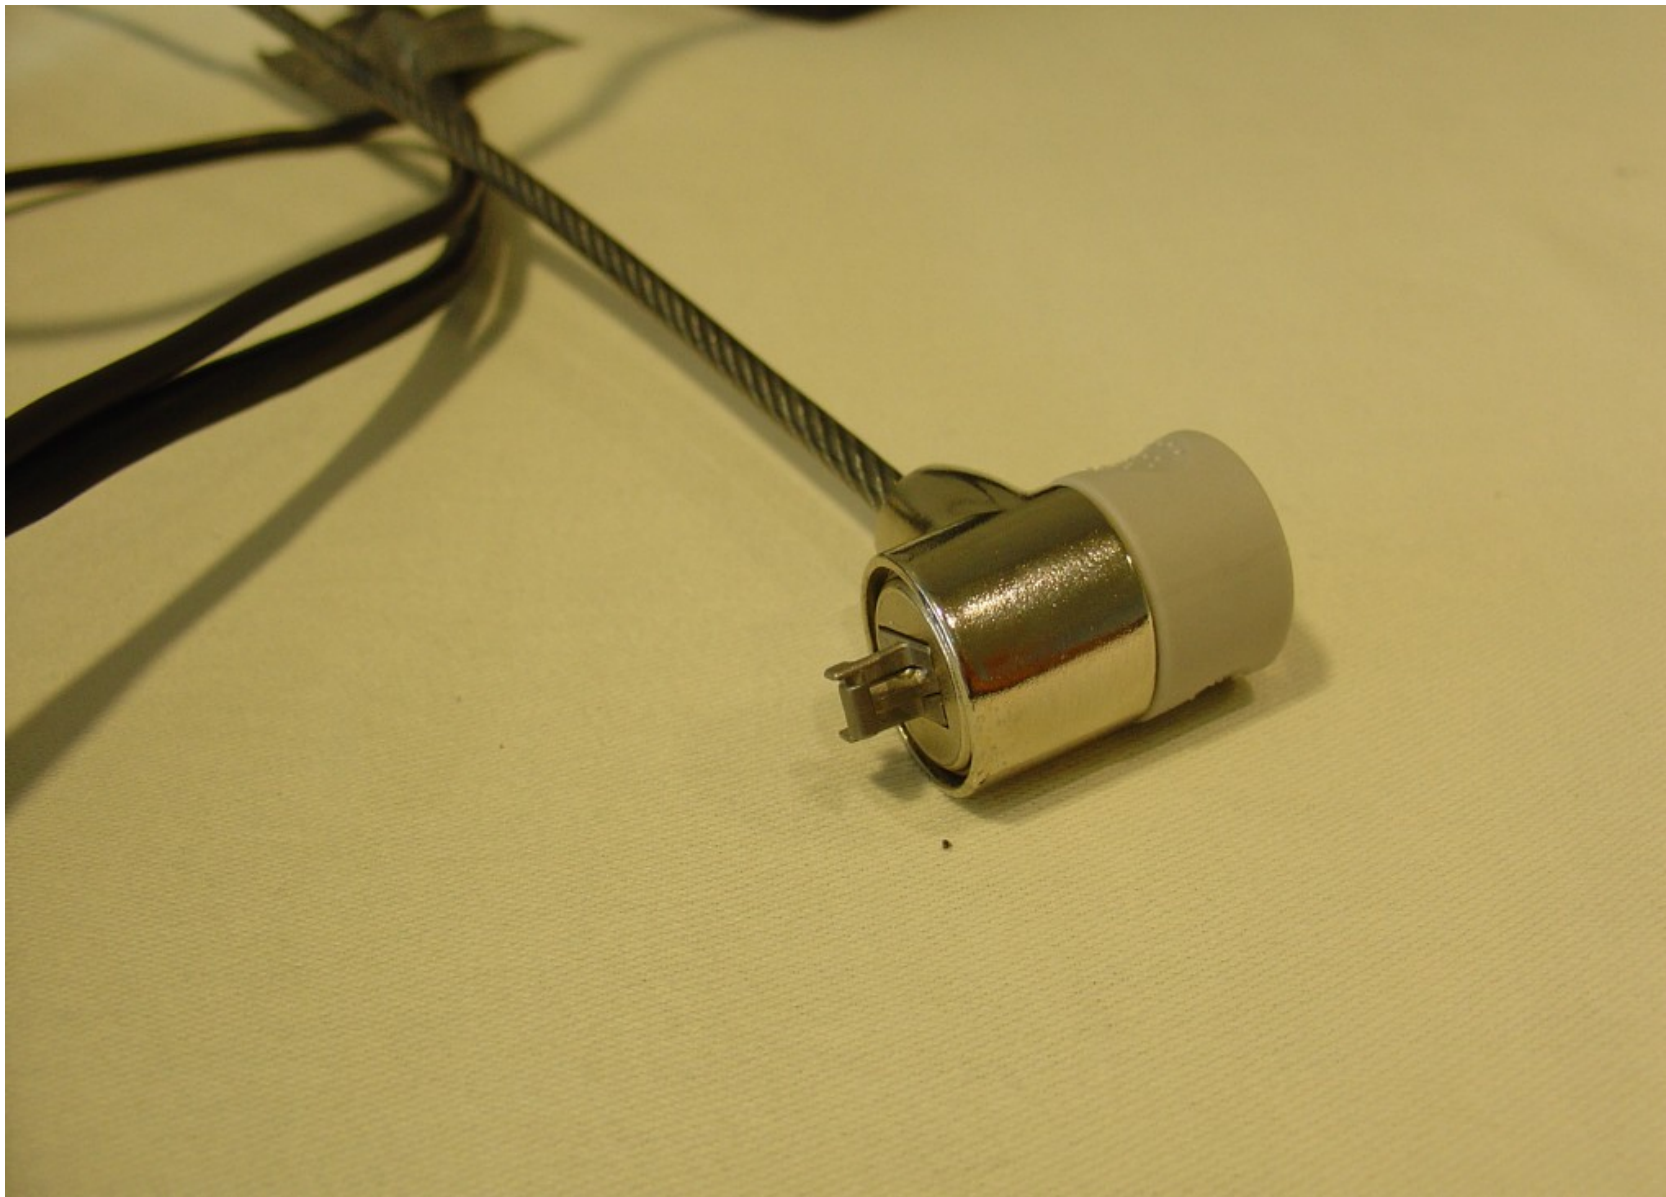

- IEEE 802.11a trial
  - First time in RIPE Meetings
  - Approximately 30 concurrent users (~250 b/g)
- Improved network design
  - Resiliency for single router failure and power outages
- Photo gallery – another trial
  - <http://rosie.ripe.net/gallery>

# (Technical) Problems

- Short wireless network outages on Monday
  - Caused tcp/vpn sessions to drop
  - Increasing DHCP lease time resolved
- Repeated local power failure in GBR
  - Likely caused by faulty laptop power plugs
- Theft incidents
